Zeeshan Shahid

Software Engineer

I am a passionate computer science student with hands-on experience in full-stack web and mobile application development. Skilled in React, Next.js, Node.js, Express.js Django, Flask, Bootspring and React Native, with a strong understanding of databases, APIs, and authentication systems. Adept at creating responsive, modern, and user-friendly applications, while continuously exploring AI integration and real-time technologies.

Education

2024 - 2028
Bachelor of Computer Science
COMSATS UNIVERSITY, ISB

2020 - 2022
Higher Secondary School
Punjab Colege, Faisalabad

2017 - 2019
Higher School
Sandal College, Faisalabad

Expertise

- Full-stack web applications (React + Node + MongoDB)
- Git, GitHub, Vercel, Netlify, InfinityFree
- Environment variables, secure API key handling
- Database design & ERD, SQL & NoSQL
- AI & Chatbot integration (Google Gemini API, OpenAI)
- App Development
- Sentry (error monitoring)
- Basic knowledge of Docker / deployment pipelines

Programming Languages:

Java, Python, JavaScript (ES6+), C++

Frontend Development:

- React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3
- Responsive & mobile-first design, animations, modern UI/UX

Backend Development:

- Node.js + Express.js, Next.js API routes, REST APIs
- Authentication & authorization (Clerk, JWT)
- MongoDB, Firebase, data serialization

Experience

July 21, 2025 to August 15, 2025
Rapidev Private Limited, ISlamabad
AI Intern

Completed a Summer Internship in the AI Department at Rapidev Private Limited from July 21, 2025 to August 15, 2025, where I contributed to assigned AI projects, collaborated effectively with team members, and demonstrated professionalism while gaining hands-on experience in real-world AI applications.

September 2025
YoungDev Interns, Islamabad
Fullstack Developer

Completed a one-month remote internship as a ReactJS Developer at YoungDev Interns, where I developed and enhanced front-end components, collaborated with mentors and team members, and gained practical experience in building responsive and user-friendly web applications using ReactJS.

May2025 - Jun2025
YoungDev Interns, Islamabad
Python Backend Developer + AI Intern

Selected for a 4-week remote internship as a Python Developer at YoungDev Interns, where I worked on real-world projects using industry-standard tools, collaborated in a supportive team environment, received mentorship from experienced professionals, and developed practical skills while building a strong project portfolio.

Projects

React-Native-Ecom

Full-Stack E-Commerce Platform — Built a production-ready mobile app (React Native + Expo) with Admin Dashboard and REST API (Node.js, Express, MongoDB), implementing Clerk authentication, Stripe payments, order management, analytics, background jobs, and error monitoring (Sentry).

Recipe Master

Full-Stack Mobile Recipe App — Developed a React Native + Express.js application with secure authentication, PostgreSQL integration, dynamic theming, and scalable backend architecture.

Live Docs

Real-Time Collaborative Editor — Built a collaborative document platform using Next.js, TypeScript, Liveblocks, and Lexical Editor with real-time editing, comments, and notifications.

InGPT

AI Chatbot Interface — Created a responsive React-based chatbot powered by Google Gemini API with modern UI and smooth user interaction.

Chat App

Real-Time Chat Application — Engineered a WebSocket-based chat system using Node.js and Firebase, supporting live messaging and multi-room communication.

These are some of the key projects I completed during my learning journey, demonstrating practical experience in full-stack web and mobile application development.
